# RENTAL IN/OUT CHECKLIST

## GP500

Each time the GP500 is rented out and returned, follow these steps to ensure it is in proper working condition.

Before conducting any maintenance procedures, make sure you are wearing proper safety equipment and the machine is disconnected from power.

*\*Refer to Service Manual for precise schedule*

- Ensure water tank is empty and clean
- Safety emergency stop button is functioning
- Two removable weights on grinder base are present
- Check control box: start, forward/reverse and variable speed functionality
- Check skirt condition
- Ensure rubber couplers are free of damage
- Ensure dust collector hose from grinder base to dust collector port is hooked up and free of damage
- Check frame and base for cracks or visible damage
