# HANDLING EQUIPMENT

## 63-DC: TRUCK WINCH™

Easily handles large rolls of carpet and will move pallets from the front to the rear, or the rear to the front of the truck.

- One person can load and unload trucks without injury in a fraction of the time of four people
- Winch mounts at ceiling height inside box on bulk head
- Simple to mount
- A 4-inch channel mounted across the back of the truck allows a pulley to be directly aligned with roll
- Powerful motor pulls at 22 feet per minute
- Pulling capacity of up to 2000 pounds
- Just as important as a forklift but at a fraction of the cost
- Recognized by insurance companies for workers' comp reductions
- Rope included
- One-year manufacturer's warranty

**“The 63-DC Truck Winch is great, I have taken a winch out of a truck that is going out of service and re-installed it in a new truck!”**

**- Brian Ghere, Shaw Inc.**
